Did you know that you can close 2-3 apps at a time in iOS 7?

1. Double-tap the home button on your iPad or iPhone. The running app previews will appear.
2. Swipe left or right to find the app(s) you would like to close.
3. Touch 2-3 of the app previews and swipe upward. iOS 7 allows you to close multiple apps at a time. Try closing two at a time. See if you can close three at a time? Closing running apps saves memory and also saves your battery.
