In the bottom right, there is a large yellow circle, a smaller orange circle, and a dashed yellow circle. A large dashed blue circle is also present, partially enclosing the text.

Google for Littles

By: Katie Neal & Katie Womack

Are Littles “big enough” to use technology in the classroom?

Yes! Pre-K and elementary school-aged children are naturally curious about the world around them. They love to explore and play, in fact, that’s how they learn. That innate drive to discover and willingness to try is also what makes Littles great at embracing new opportunities.
