Socrative

Socrative is a smart student response system that empowers teachers to engage their classrooms through a series of educational exercises and games via smartphones, laptops, and tablets. Socrative is designed in such a way to help teachers make classes more engaging and interactive. It also helps teachers initiate activities and prompt students with questions to which students can respond using their laptops or smartphones. The good thing about Socrative is that it can run on any kind of device with internet connection: iPads, iPods, laptops, smartphones so students will never miss out on any learning activity.

Ways to use socrative:

Some of the things you can do with [Socrative](#) include :

- Creating quizzes
- Assessing and checking students comprehension using true/false or multiple choice questions
- Polling your students using multiple choice questions
- Loading a pre-made quiz and sharing it with students. You can also see who completed the quiz and who did not.
- Socrative sends an instantaneous report of the finished activity to your email address. In the case of a quiz, it sends you a report that features students results allowing you thus to give students quick feedback.

Creating a Quiz

Select:

When selected, your quiz is assigned a unique **SOC number**. You can give this to other teachers so that they have the quiz too. Gotta love collaboration!

The form shows a text input field containing 'History Quiz'. Below it is a 'Share Quiz (SOC #: 16774427)' checkbox with 'Yes' selected. Below that is a '+ Add Tag' button.

Enter a name for your new quiz.

Add a Common Core tag to your quiz (see next page).

The 'ADD QUESTION:' section contains three buttons: 'MULTIPLE CHOICE' (yellow), 'TRUE / FALSE' (purple), and 'SHORT ANSWER' (orange).

Add a question to your quiz. You will be able to delete and reorder.
